

# Wecoline Microfibre

Ready-to-use concept for  
cleaning with just water

Strong and  
sustainable  
cleaning  
solution

**wecoline®**

# What is microfibre?

The microfibrils penetrate into the pores of the materials to be cleaned and have a surprising impact. You can achieve a perfectly hygienic outcome with just a damp cloth and clean water.

## Quality guarantee

The Nordic Ecolabel guarantees sustainability in the broad sense of the word. The product is subject to stringent quality requirements, in addition to criteria concerning health, the environment and the climate. For example, the Wecoliner microfibre cloth has been tested for its hygienic and cleaning functionality, absorption, colour fastness, shrinkage resistance and wear for certification purposes. This also guarantees the longevity of the cloth.

## Benefits of microfibre

A cleaner and streak-free result

- Suitable for any environment and for 95% of daily contamination
- Durable: the cloths can be washed at least 500 times

“Wecoline microfibre absorbs a lot and is of very high quality. Clean cloths, very durable (texture) and very absorbent. Ideal for damp uses. The cloth really absorbs the dirt! Mainly intended for daily cleaning, sustainable use and longevity, so you can wash it often”

Joeri, cleaning company  
(not depicted in photo)

## Range of microfibre cloths

### Cloth with folding instructions

Are you doing this correctly? The folding instructions printed on the cloth ensure that the cloth is always used in the right way. Available in five colours: ●●●○●

### Flexible glass cloth

Remove fingerprints fast. This cloth is very quick-drying.

### Glass and metal cloth

Achieve a streak-free result with only water. Glass, mirrors, windows and metal are cleaned with no streaks. Available in four colours: ●●●●

### Cleaning cloth non-woven

Smooth cloth with streak-free results. Available in four colours: ●●●●

### 3R (Recycled, Reuse en Reduce)

Made of 100% recycled polyester for even more sustainable cleaning. Available in four colours: ●●●●

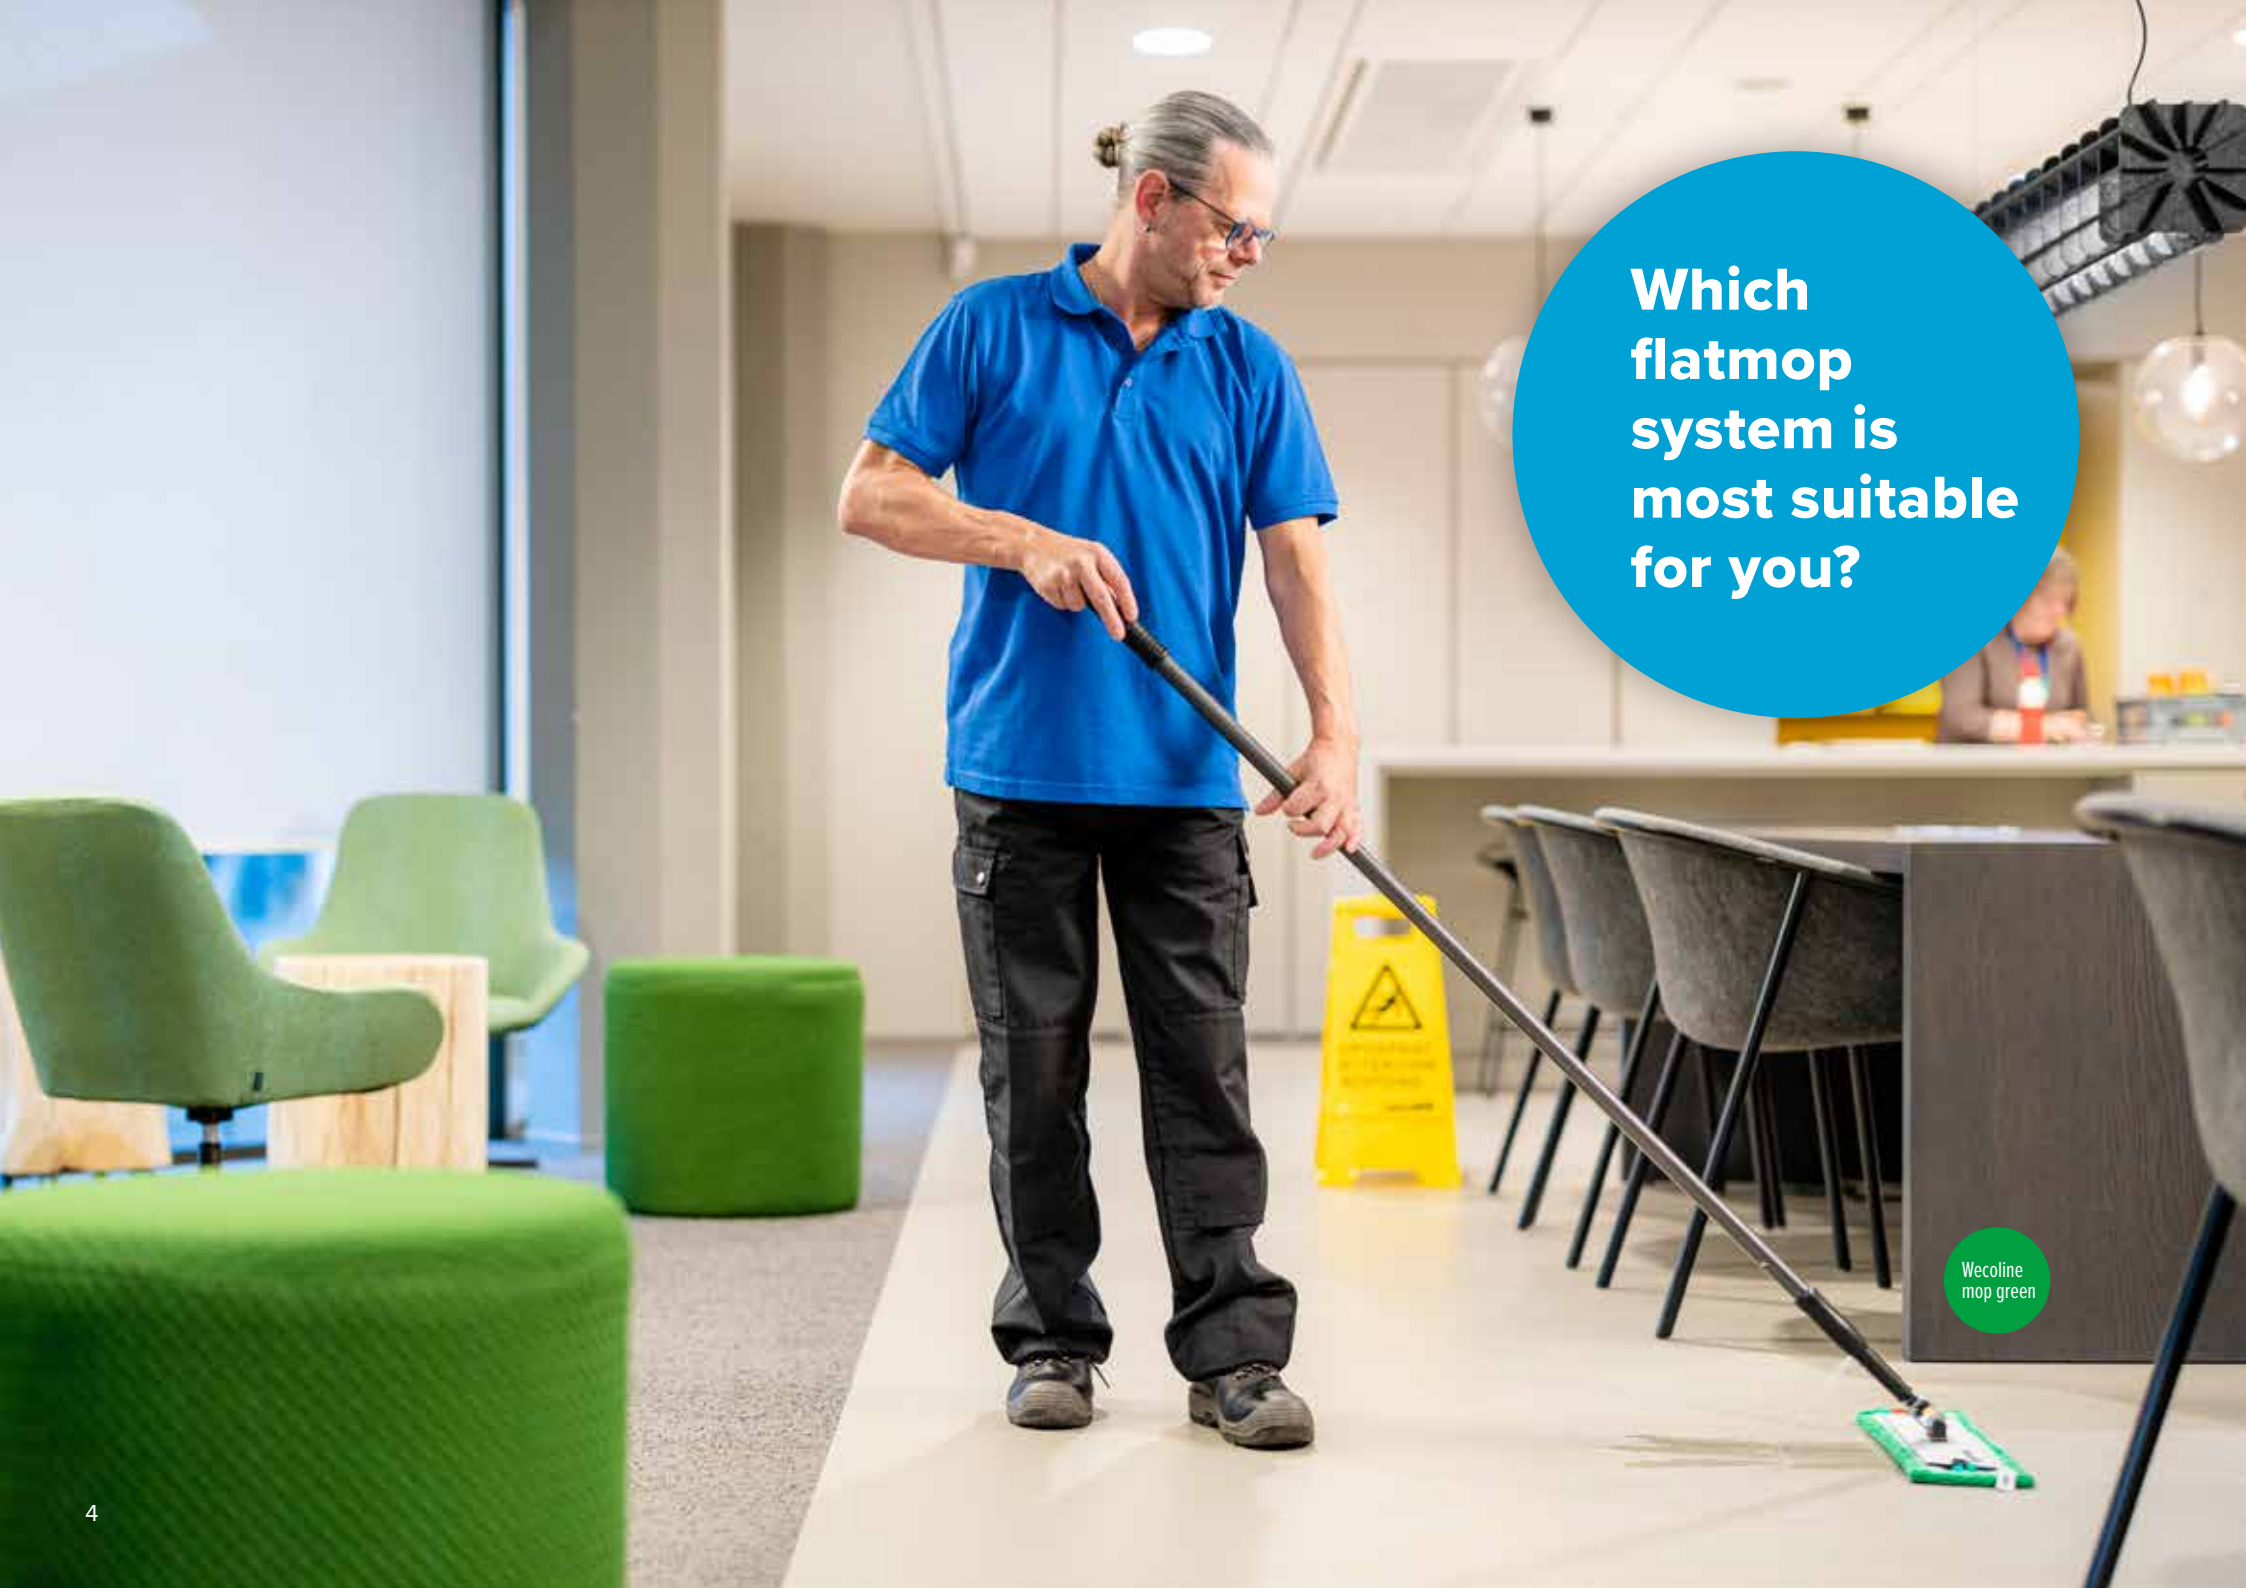

### Washing mitt

Handy for that door handle that often gets dirty. Available in three colours: ●●●

**Which flatmop system is most suitable for you?**

## Carabao floor set

- ✓ Unique rib design of the flat mop
- ✓ Triangular shape for comfortable grip
- ✓ Frame with magnets
- ✓ 4 times faster mop(side) change

 ↔ 45 cm	03040586	Carabao flat mop (damp use) For cleaning hard surfaces.
 ↔ 45 cm	03040596	Carabao flat mop scrub (damp use) For cleaning hard surfaces soiled more than average.
	03030146	Carabao spray unit Ideal for moistening the flat mops
 ↔ 45 cm	03030136	Carabao flat mop frame The flat mop frame attaches to the flat mops by magnets. The flat mop frame fits perfectly into the flat mops with rib design. This exerts optimum pressure on the floor and allows you to clean more square metres.

Carabao curved ergo handle  
03030116

The latest handle in the market! With its trioval shape and ergonomic ball at the top, this handle is a pleasure to work with. Due to the curve at the bottom of the handle, pressure on the flat mop is optimal.

## Flaps

- ✓ Easy to attach
- ✓ Easy to remove
- ✓ Can be used with collapsible frames
- ✓ Ergonomic wringing

 ↔ 40 cm	03040422	Microfibre flat mop with pockets and flaps (damp use) For cleaning floors, walls, doors and other hard surfaces.

# Cleaning with the Allure microfibre concept

Allure: the optimum combination of the best microfibre materials and a professional appearance

## \* Note:

Wecolife uses an 8-digit article numbering. An article with a 7-digit code followed by a full-stop means that the full-stop at the end of the article number will be substituted with a digit indicating the colour of the article.

**Blue=0, Yellow=1, Red=2, White=3, Green=4, Orange=5 and Anthracite=6.**
